

## September 2011

One of our main focuses surrounding church planting is of course making disciples. The beginning step in the process of making disciples is sharing the gospel. One of the most effective tools that we are using to engage people with the gospel is Honest Deceiver Ministries. A good magician or illusionist is someone who is **honest with you** about the fact that **they are about to deceive you**. We make it very clear to people that see our "performances" that they are merely witnessing illusions, not real magic. The power of HDM is that illusion engages people like nothing else. It is different, and people are interested in it.

We are now actively training new magician evangelists who are carrying the gospel to the lost with this unique platform. We now have 5 different groups throughout Metro Manila, totaling over 40 HDM members in training! Imagine 40+ evangelists actively engaging people each week with the gospel through a tool that is shown to be effective....anywhere!

This vision has given us a goal for HDM: **to reach 5,000 people a week with the gospel using the art of illusion!** Prayerfully, many of those who hear the gospel will accept its Truth. This is a big goal, even in a city of 20 million, but we believe it can be done. Will you pray with us about this goal this month?

## **360 DEGREES COMPLETE THE CIRCLE**

To support the vision of HDM, we need your help. You can support our ministry for just \$100 per year. That's about \$8.33 a month. Or one meal at McDonalds. Or one iTunes album. Would you consider supporting the important work that God is doing here in Manila?

If so, you can now give online using your debit/credit card. We have established 360 Degrees to make it easy for you to give. Join 80+ partners supporting our ministry this way by sacrificing just a LITTLE to make a BIG difference!
